

## **Chapter 1 : Introduction**

1.1	Preamble	1-1
1.2	Objectives	1-2
1.3	Scope of Work	1-2
1.3.1	Suggestions from Honourable High Court Authority	1-4
1.3.2	Activities Assigned for Preliminary Assessment Report	1-4

## **Chapter 2 : Study Area**

2.1	Study Profile	2-1
2.2	Infrastructural Facilities for the Study Region	2-8
2.3	Nashik City	2-11
2.3.1	Waste from Water Treatment Plants	2-16
2.3.2	Storm Water Drainage System	2-18
2.3.3	Sewerage System in Nashik	2-18
2.3.4	Impact of Onsite Sanitation System: Septic Tanks	2-20
2.3.5	Sewerage System of Nashik	2-20
2.3.5.1	Underground Sewerage System	2-22
2.3.5.2	Drainage Basins and Sewerage Zones	2-23
2.3.6	Pumping Stations	2-27
2.3.7	Existing Status of Sewage Treatment Facilities and Recent Works Undertaken by NMC	2-32
2.3.8	Nallas in Nashik City	2-35
2.3.9	Sanitation in Slum Area	2-36
2.3.10	Domestic Solid Waste Management System for Nashik City	2-38
2.3.11	Industrial Zone	2-38

## **Chapter 3 : Evaluation of Infrastructure Facilities for Nashik City**

3.1	Preamble	3-1
3.2	Dam Water Quality	3-1
3.3	River Water Quality	3-9
3.4	Tributaries of River Godavari	3-18
3.5	Evaluation of Sewage Treatment Plants	3-23
3.5.1	Engineering Evaluation	3-23
3.5.2	Performance Evaluation Based on Quality	3-25
3.5.3	Evaluation of Sewerage System Based on NMC Data (2012-2014)	3-26
3.5.3.1	Quantification of Pollution load based on Sewage generation, Collection and Transportation to STPs through Pumping	3-26
3.5.3.2	Pollution Load Reaching Godavari through Nalla's	3-27

---

---

3.6	Evaluation of STPs based on Secondary Data	3-28
3.6.1	Problems Faced in Effective Functioning of STPs	3-30
3.7	Evaluation of Satpur Industrial Estate	3-32
3.7.1	Recommendations	3-45
3.8	Solid Waste	3-45
3.8.1	Collection of Municipal Solid Waste	3-46
3.8.2	Characterization and Treatment of Solid Waste	3-47
3.8.3	Methodology of MSW Collection	3-48
3.8.4	Evaluation of the Domestic Solid Waste Management System for the Nashik City	3-53
3.8.5	Issues of Concern	3-54

#### **Chapter 4 : Evaluation of Water and Sewerage Facilities**

4.1	Performance of the Water Treatment Plants	4-1
4.2	Evaluation of Sewerage System	4-5
4.2.1	Observation on Existing Sewerage System	4-9
4.3	Observations on Sanitation and Recommendations	4-11
4.4	Water Quality Data of River Godavari and Its Tributaries	4-12

#### **Chapter 5 : Nallas at Godvari Stretch**

5.1	Nallas Across Study Area	5-1
5.1.1	Observations and Interpretation for Nalla Water Quality at Nashik	5-10
5.2	Impact Analysis of Nallas on River Water Quality	5-12
5.2.1	Observation for Impact Analysis of Nalla Discharges on River	5-13
5.2.2	Observations for Trace Metal Analysis	5-17
5.3	Action Plan Implementation Impact after NEERI's Recommendation	5-17

#### **Chapter 6 : Experimental Details for Solving Problem of Pollution in Nallas and Foam in STPs**

6.1	Wetland Treatment for Nalla	6-1
6.1.1	Preliminary Survey	6-2
6.1.2	Flow Assessment	6-3
6.1.3	Results of the Flow at Nallas	6-3
6.1.4	Phytorid Treatment for Nallas	6-4
6.2	PSRT Based Improved Sanitation Treatment Unit (IIT, Bombay)	6-6
6.3	Detail Investigation on Problem of Foam Formation at Tapovan with USAB Reactor	6-9
6.3.1	Probable Causes of Foaming in UASB	6-9
6.3.2	Experiments Conducted at NEERI	6-11

---

---

**Chapter 7 : Environmental Management Plan (EMP) for Godavari River Basin in the Defined Study Area**

7.1	Environmental Management System (EMS)	7-1
7.2	Environmental Monitoring Programme (EMP)	7-4
7.2.1	Environmental Laboratory/Cell	7-9

**Chapter 8 : Action Plan for Abatement of Godavari River Pollution**

8.1	Preamble	8-1
8.2	Action Plan with Respect to Specific Topics	8-2

**Chapter 9 : Approach for Assessing Environmental Flow for River Godavari in the Study Area**

9.1	Preamble	9-1
9.2	Interim Assessment of Minimum Flow for Godavari	9-1
9.3	River Base Water Quality	9-3
9.3	Environmental Flow Calculation Requirements	9-5

**Chapter 10 : Floodplain Planning & Development Guidelines for River Godavari, Nashik Region**

10.1	Background	10-1
10.2	Objectives	10-1
10.3	Flood Plain Management and Planning	10-1
10.4	Planning Guidelines & Development Controls	10-3
10.4.1	Ecologically Defined Stream Channel	10-3
10.4.2	100 Year Floodway or "No-Development" Zone	10-4
10.4.3	100 Year Flood Fringe Area	10-5
10.4.4	Development Beyond the 100 Year River Floodplain	10-7

---

## LIST OF ANNEXURES

---

Annexure 1	The High Court Of Judicature At Bombay Ordinary Original Civil Jurisdiction Public Interest Litigation No. 176 Of 2012
Annexure 2	Project Proposal Submitted by NEERI on May 2013
Annexure 3a	Preliminary Report
Annexure 3b	Supplementary Report
Annexure 3c	Action Plan for Kumbh Mela
Annexure 3d	Action Plan for Godavari River
Annexure 4	Affidavit made by MPCB with reference to CETP at MIDC of 1 mld Capacity
Annexure 5	The Information on the Turbidity for Raw and Finished Water and Details about Water Quality Surveillance
Annexure 6a	Sewage Zone and Underground Sewerage Scheme for Nashik City Under JnNURM
Annexure 6b	Plan River and Trunk Sewer for Nashik Municipal Corporation
Annexure 7	Ward wise Coverage in Selected Sewerage Zones
Annexure 8	List of Water Polluting Industries in Satpur Zone of Maharashtra Industrial Development Corporation, Nashik Division
Annexure 9	Methodology for Sample Collection, Preservation and Analysis of Ground and Surface Water Bodies
Annexure 10a	Water Quality Standards for Best Designated Use –MPCB Standard
Annexure 10b	Environmental Standards for Drinking Water BIS10500-2012
Annexure 10c	Trace Metal Minimum Detection Limit
Annexure 10d	List of MPCB Sampling Locations along with Code
Annexure 11a	Secondary Data on River Water Quality Provided by NMC, 2010
Annexure 11b	Secondary Data on River Water Quality Provided by NMC 2012
Annexure 12	Existing and Proposed STPs at Nashik
Annexure 13	Performance of STP Secondary Data at Tapovan and Panchak
Annexure 14	Map of Satpur Industrial Zone with demarcation of evaluated industries
Annexure 15	Analytical Results of Industrial Samples Received from MPCB
Annexure 16	CPCB-General Discharge Standards and Standards for Inorganic Chemical Industry, Dairy & Tanneries Effluents
Annexure 17	Monthly Average Pumping Details (2012-13) for Nashik City Sewerage System
Annexure 18	Application of Natural Methods for Sewage Treatment and Polishing of Treated Wastewater
Annexure 19	Uniform Protocol : Selected Parameters Methodology
Annexure 20a	Details of Water Releases for Ekalahara Thermal Power Plant
Annexure 20b	Planning for Distribution of Water in Gangapur Dam
Annexure 21	Other Suitable Technologies for Removal Water Hyacinth
Annexure 22	Details of action plan committee form by NMC
Annexure 23	Data of Water Releases from Gangapur Dam (2013-14) by Water Resources Department
Annexure 24	Map of Maximum Flood Line of Godavari River Basin

---

## LIST OF TABLES

Table 2.1	City/Towns/ Villages Along the Bank of Godavari River under Study Area	2-5
Table 2.2	Existing Water Reservoirs in Trimbak Feeding to Trimbak City	2-8
Table 2.3	Sewerage System for Collection and Transportation of Sewage to STP	2-9
Table 2.4	Information on Water Treatment Plants in Nashik	2-13
Table 2.5	Details of the Bore Wells Available in Nashik	2-14
Table 2.6	Information on Elevated Service Reservoirs in Nashik City	2-15
Table 2.7	Waste Disposal Practices for Water Treatment Plants	2-16
Table 2.8	Sewerage Infrastructure Augmentation under Various Schemes	2-18
Table 2.9	Network and Pumping Stations for Nashik City based on River Drainage Basins	2-23
Table 2.10	Details of Sewerage Zone	2-24
Table 2.11	Information on the Existing Pumping Stations for Carrying Domestic Wastewater in Nashik	2-26
Table 2.12	Information on Proposed Pumping Stations for Carrying Domestic Wastewater in Nashik	2-28
Table 2.13	Particulars of Existing and proposed Sewage treatment Plants at Nashik	2-30
Table 2.14	Existing and Proposed Sewage Treatment Plants	2-31
Table 2.15	Zone wise Number of Slums in Nashik City	2-35
Table 3.1	Sampling Locations at Dam Site	3-1
Table 3.2a	Physico-chemical Characterization of Dam Water Samples for Godavari (Pre –monsoon Season)	3-6
Table 3.2b	Physico-chemical Characterization of Dam Water Samples for Godavari (Post –monsoon Season)	3-7
Table 3.3	Analytical Result for Heavy Metal Analysis of Dam on River Godavari	3-9
Table 3.4	Sampling Locations at River Stream	3-10
Table 3.5a	Physico-chemical Characterization of River Water Samples for Godavari (Pre –monsoon Season)	3-11
Table 3.5b	Physico-chemical Characterization of River Water Samples for Godavari (Post monsoon Season)	3-13
Table 3.6	Analytical Result for Heavy Metal Analysis of Dam on River Godavari	3-17
Table 3.7	Sampling Locations of Tributaries Meeting River Godavari in Nashik	3-18
Table 3.8	Analytical Results for Tributaries Samples for River Godavari, Nashik (Post Monsoon Season)	3-20
Table 3.9	Average Values for Evaluation of STPs*: Tapovan UASB	3-29
Table 3.10	Average Values for Evaluation of STPs*: Panchak ASP	3-29
Table 3.11	List of Effluent Generating Industries Evaluated from MIDC, Satpur Tal. & Dist. Nashik	3-33
Table 3.12	List of Industries Covered for Collection of Samples for Evaluation	3-37
Table 3.13	Analytical Results of Heavy Metals of Industrial Samples in Nashik (Dated : April-May, 2014)	3-39

Table 3.14	Details of the Domestic Solid Waste collection System in Nashik	3-46
Table 3.15	Information on Quantity of Domestic Solid Waste Collected from Different Zones by “Door to Door” Scheme	3-47
Table 3.16	Characterization of Municipal Solid Waste (MSW) at Nashik	3-47
Table 3.17	Composition of MSW in Nashik	3-48
Table 3.18	Characteristics of Leachate Samples at Various Stages of Treatment at MSW Plant, Nashik	3-50
Table 3.19	Expected Quantity of MSW Generation in Nashik City for a Period of 2026	3-55
Table 4.1	Summary Results of Water Quality Surveillance for Nashik City for 2013	4-1
Table 4.2	Comparison of Monthly Average of Pumping Details (2012-13) for Nashik City	4-9
Table 4.3	Comparison of Monthly Average of Pumping Details (2013-14) for Nashik City	4-9
Table 4.4	Secondary on River Water Quality – 2012	4-13
Table 5.1	Information on Nallas Joining River Godavari	5-3
Table 5.2	List of Nallas Joining Right and Left Bank along with Sample Code at River Godavari & River Nasardi	5-6
Table 5.3	Analytical Results of Chikhali Nalla Sample on Right Bank of River Godavari (May-2013)	5-6
Table 5.4	Analytical Results for Nallas on Right and Left Bank of River Godavari In Nashik (October-2013)	5-7
Table 5.5	Analytical Results of Nallas on Right and Left Bank of River Godavari in Nashik (November-2013)	5-8
Table 5.6	Analytical results for Nallas on River Nasardi in Nashik (November-2013)	5-7
Table 5.7	Analytical Results for Nallas on Right Bank of River Godavari in Nashik: (January-2014)	5-9
Table 5.8	Analytical Results for Composite Sampling of Nallas on Right Bank of River Godavari in Nashik (May-2014)	5-9
Table 5.9	Additional Samples Collected from Deliberate or Otherwise Broken Chambers of Sewer Lines at Nashik Entering River Godavari	5-10
Table 5.10	Ranges of Pollutant Parameters in Major Nallas Evaluated During October -2013 to January 2014	5-11
Table 5.11	River Sample List along with Sample Codes	5-12
Table 5.12	Impact Analysis of Nallas Discharges in Godavari River at Nashik (December 2013)	5-14
Table 5.13	Trace Metal Analysis for Nallas Selected for Impact Evaluation	5-16
Table 5.14	Action Under Taken by NMC on Various Nallas	5-18
Table 6.1	List of Nallas Flowing in Godavari River	6-2
Table 6.2	Method of Flow Assessment at Nallas	6-3
Table 6.3	Average Flow of Sewage at Nallas	6-3

---

Table 6.4	Detail Estimates for Someshwar Nalla	6-5
Table 6.5	Detail Estimate for Phytorid System for 400 m <sup>3</sup> /d (Chikli and Anandvali Nalla)	6-5
Table 6.6	Estimate for 500 Cu m module (Forest Nursery, Chopda Nalla and Ramwadi Nalla)	6-6
Table 6.7	Estimate for Phytorid for 25 Cu .m. (Jadhav Nalla)	6-6
Table 7.1	Environmental Monitoring Programme	7-6
Table 7.2	Environmental Legislations	7-10
Table 7.3	Suggested Routine Maintenance activities for Common Laboratory Equipments	7-11
Table 9.1	MPCB Water Quality Monitoring Data from 2007 to 2012	9-3
Table 10.1	Chance of Flood Over a Period of Years	10-3
